Q: The REDI Funding was presented to the County in 2019. We have been presented some information on the project but have not seen any movement. Are the funds still available?

A: From LMG: Yes the funds are still available. The funding for this project has been bonded to assure the community as long as the project continues forward progress the funding is available. The District is submitting the 65% documents package for approval to the REDI Commission in the next few weeks. With that approval, we will be allowed to submit for permitting.
