

Water Quality Project Implementation Process

5 Highest Priority Watersheds should be the focus for WQCC plans, funding and actions

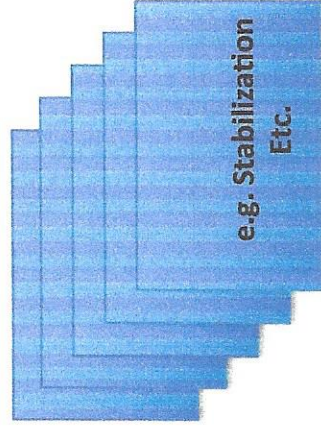

Determine Funding Source

- FLOWWPA Budget
- Grant Application
- Special fund raising effort

Project (s) Approved

- Champion takes on role of project management
- Reviews by WQCC

Priority Watersheds are identified and selected based on assessments

Each priority watershed should have a "champion"/representative that has membership on the WQCC

These champions participate in the development of funding requests, action plans, monitoring progress, interaction with the affected community and provide feedback/ input to the entire process.
